## MISMO and SMART Document Boot Camp

This is a one, two or three day course devoted to helping your company understand electronic mortgage (eMortgage) standards and how they may be integrated within your organization using MISMO and SMART Documents. eMortgage implementations involve developers, business analysts and legal counsel who must make informed decisions on how to purchase and implement technology solutions within and outside of their organizations.

All aspects of electronic mortgages are covered. The first day is an introduction to the uses of MISMO and SMART Documents for a technical, legal, and business audience. The second and third day are for a technical audience.

The Boot Camp covers the following topics:

1. An overview of the MISMO standards
  - a. The business of eMortgages
  - b. A brief history of MISMO and the SMART Document
  - c. The Logical Data Dictionary
  - d. MISMO Process Areas
    - i. Real Estate Services (such as Credit, Title and Flood)
    - ii. Origination
    - iii. eMortgages
    - iv. Closing
    - v. Post-Closing (servicing, secondary investors)
2. SMART Documents
  - a. Understanding Markup Technologies and Electronic Documents
  - b. A walk through the SMART Document Specification
  - c. Implementing Views within SMART Documents
  - d. eNotes and the MERS eRegistry
3. Electronic Signatures
  - a. eSign and UETA
    - i. Standards and Procedures for Electronic Records and Signatures (SPeRS)
  - b. eSignatures and Tamper-Evident Sealing within SMART Documents
  - c. eRecording and eNotarization
4. Moving eMortgages around: ePackaging and eVaulting
